Greetings from Southern California, where this pioneer Cassadagan is deputy editor of the editorial page of The Orange County Register. I bring this up having just looked at the PDF version of a 1967 edition of The Cassadagan. I think I was the first editor of The Cassadagan, or one of the early ones (I actually remember writing a short piece in Latin!), and here I am, 40+ years later, still an editor. Does anyone remember a shortlived alternative mimeographed sheet we called Bent?

.... and congratulations to Bro. Stephen and whoever else is responsible for this site. The photos are wonderful. I have been in e-mail contact with J.P. Mandler the last year or two and would love to hear from others from the early years.
