SUPERIOR GENERAL MEETS WITH LAY ASSUMPTIONISTS IN MEXICO

In early March, the lay Assumptionists met with our Superior General at Emperatriz Parish in Mexico City. We had the opportunity to thank him for the valuable contribution he has given us over these years in his letters, documents and announcements, but above all for his prayer that has kept us firm on our journey with and in the Assumption.

We gave the General some background of our journey as collaborators for the Kingdom of God over the past 25 years. We began when Fr. Camillus Thibault saw fit to establish the first lay group at Emperatriz Parish. We explained how our missionary work led to the creation of the first Dalzonian Encounter, the Latin American Encounter, retreats, workshops, and other initiatives. One of the greatest fruits was the establishment of the Assumptionist Fraternity group that started at the Santiago Apostol Parish in Tlilapan.

I believe that each of my brothers and sisters are grateful to have encountered the Assumptionist charism in their lives and consider themselves fortunate to collaborate in the building up of the Kingdom. This gratitude was made especially clear to us through the General's visit, with whom we were also able to share a small dinner during his visit, topped with the perfect touch of the fraternity that characterizes us in the Assumption.
