Image Books, 1983

It is clear that the author of this text, inspired by great love, has brought to bear extensive research and profound scholarship as he presents to the reader the known facts of the wonders of Fatima. In addition, Fr. Pelletier, a renowned Mariologist, presents to us, in a most readable form, the message of Fatima, that is, that prayer and the response to God's outpouring of divine grace are the pathways to achieving personal salvation.
